Regulations for the Research Results Presentation of Graduate Student

Amended by the College Affairs Meeting on October 13, 2015 (Articles 3)

1. The research results presentation is held in May to June once a year. Graduate students of all department/institute are required to participate in the annual research results presentation during the study period. Those who don't participate will not be eligible for graduation. Students who graduated in the previous semester due to special circumstances will not be subject to this limitation. Faculty members and doctoral students can participate freely, but the participation will not be included in the competition. If the research involves patents, the student can be exempt from participating in the presentation with the approval of the advisor and following the administrative procedures for official signing and approval by the Dean.
2. The evaluation committee will be formed by the faculty members of college those whom invited by Dean. The advising professors of students participating in the presentation are not required to recuse. The evaluation form should include suggestions for the participants' reference.
3. The research results presentation are divided to three categories, included Clinical Group, Subclinical Group, and Basic Research Group. Students can choose a group to participate in. The top three participants in each group will be awarded medals, and each department will allocate prizes base on the distribution quota of the annual graduate student scholarships. There will also be awards for several honorable mentions.
4. The Regulations shall be implemented upon approval by the College Affairs Meeting. Any amendments shall follow the same process.
